Tools to navigate today's digital landscape
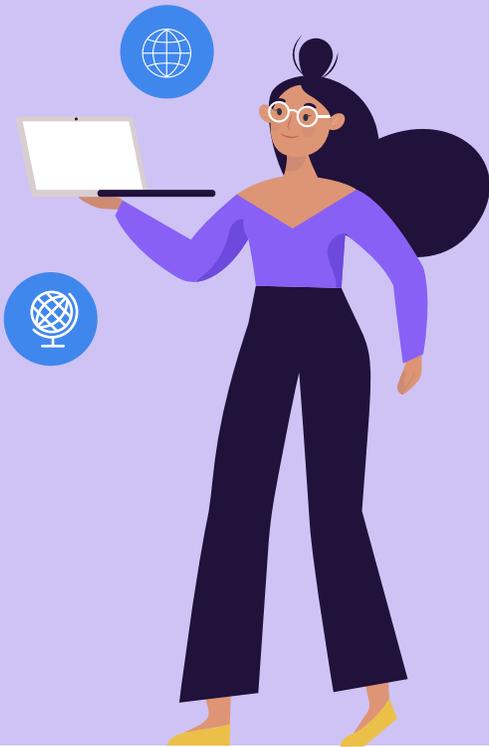

Digital Skill Resources

Additional resources

In addition to these resources, you have access to a range of tools to help with study and test prep, as well as research databases.

Whatever your have ahead of you, we can help you feel prepared.

Digital Literacy
Interactive activities guide students through project-based learning activities using digital tools to create podcasts, PSAs, multimedia presentations, digital business plans, social media campaigns and more.

Teen Health and Wellness
Hone digital literacy skills such as online research skills, online privacy, search engine tools, smartphone and social networking safety, and more. In addition, find tools to address bullying and cyberbullying, gender identity, suicide, school violence and discrimination.

Computer Skill Center
Learn the basics of computers, from searching the Internet to using popular programs for word processing, creating spreadsheets and databases, implementing design and more.

LearningExpress Library
Computer tutorials on using computers, navigating the Internet and becoming proficient with popular software programs from Microsoft and Adobe.

Contact your librarian or guidance counselor for details and login instructions for these resources.
