

Differences between Learning Express Library & PrepSTEP High School Edition

PrepSTEP™ is an all in one, online platform designed to empower schools with supplemental support and help students succeed in college and beyond. It includes centers and categories organized to align directly to the needs of the high school market with all messaging and guidance pages written to address the needs of college and workforce bound high school students. (Whereas our flagship platform, LearningExpress Library was created for a diverse audience of patrons that use our resource in a public library.)

PrepSTEP has additional content not found in LearningExpress Library with additional resources that will continue to be added and be unique to PrepSTEP. Some of which includes:
